# *Training Program Registration Website*
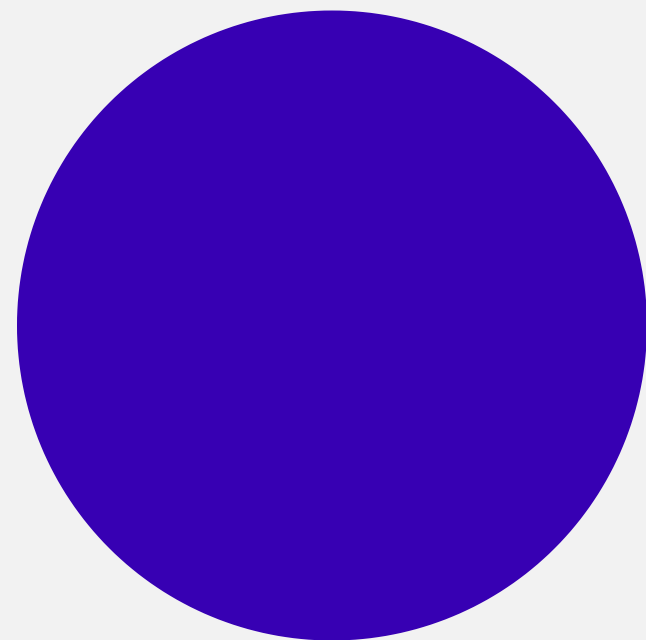

Coding Genius Academy

About

The Coding Genius Academy registration website

The Coding Genius Academy registration website aims to streamline the application process, providing candidates with a smooth and user-friendly experience. Combining an intuitive interface with efficient registration and login features, the website guides applicants through a three-step application process. This process includes filling out a comprehensive Details Form, completing an English Test, and undertaking a Technical Test. These assessments help evaluate candidates' suitability for the program. Upon finishing all steps, candidates can activate the "submit application" button, which securely saves their personal details and test results for further review and consideration by the academy.
